## **DATASHEET No. CRAFTTRAY**

**Part No.-** See reverse  
**Title-** 19", ETSI or TEP1E Craft Trays

*ETSI & 19" designs*

### **Applications**

The Fibre Craft Tray is for various front and/or rear applications in 19", ETSI or TEP1E rack types. It takes various connector types via interchangeable bulkheads, including SC or E2000 (24 fibre capacity) and FC/PC or ST (16 fibre capacity). It is particularly suited for restricted rack space applications, whilst providing many of the fibre management features found in our mainstream Optical Distribution Frames.

### **Features**

- 19", ETSI or TEP1E front and/or rear mountable (other rack types by request).
- Various connector types, including FC/PC or ST (24 fibre) and SC or E2000 (16 fibre).
- Hinged tray system, ensuring min R30 bend radius control.
- Optical Splice Trays (up to 2) contain 12 fibre capacity Multi Function Cassettes.

- Multi Function Cassettes are manufactured using UL94-V0 rated CYCOLAC® VW300
- Cable breakout and routing via a rear Cable Clip System using Ø10mm conduit.
- On tray routing is via highly flexible crush resistant Portex type tubing.
- Patchcords are routed left to right through a front concealed routing channel.

### **Part No.s**

The part numbers below are from our standard build range. This range is all for right hinged/left opening unless stated otherwise.

#### ETSI/TEP1E

90-00020 Craft Tray Assy- E2000 or SC, ETSI/TEP1E  
90-00082 Craft Tray Assy- FC/PC or ST, ETSI/TEP1E

#### 19"/ETSI

90-00021 Craft Tray Assy- FC/PC or ST, 19"/ETSI  
90-00083 Craft Tray Assy- E2000 or SC, 19"/ETSI

If you don't see the Craft Tray you need, you should contact our sales desk who will liaise with our development department to provide the product you require.
